PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with the reviewer, correct the manuscript and highlight that part in the manuscript. Authors must write his/her feedback here)
Is the manuscript important for the scientific community? Please write a few sentences explaining your answer	This manuscript is important as it addresses an important topic: ovarian cancer. It provides a solution to primary prevention difficulties. In fact, it states that nurses represent good candidates to sensitize patients with ovarian cancer.	
Is the title of the article suitable? Do you have any alternative Title in your mind?	The title is good yet too long. I would recommend: the role of nurses in genetic information and counselling amidst ovarian cancer	
Is the abstract of the article comprehensive? If your answer is No, please provide suggestions	The abstract is well structured and balanced	
Do you think the English quality of the article is suitable for scholarly communications? If your answer is No, please provide suggestions	There are no grammar nor vocabulary mistakes. However, on methods "The training of the nurses was supported by the of the Kolkata Gynecological Oncology Trials & Research Group" should be reformulated.	
Please provide your comments regarding the appropriateness of different sections of the manuscript.	All sections are well written and balanced	
Do you think that the references in the manuscript are proper, recent and sufficient? If you have any suggestions, please write here.	References are up to date
