

Review Form 2

Book Name:	Mathematics and Computer Science - Contemporary Developments
Manuscript Number:	Ms_BPR_1898
Title of the Manuscript:	Fuzzy Binary Relation Matrix and its Application in Medical Diagnosis
Type of the Article	Book chapter

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write few sentences regarding the importance this manuscript for scientific community. Why do you like (or dislike) this manuscript? Minimum 3-4 sentences may be required for this part.	A new concept namely Fuzzy Matrix was defined in this article which is easy to understand and also very interesting, Also operations on Fuzzy Matrices are defined and illustrated with suitable examples. Relation between Fuzzy matrices are studied and applied io the filed of medical diagnosis. On the whole this article integrate the concept of Matrix theory with the Fuzzy concept which is very much useful and can be applied to many fields wherever Matrices can be applied in order to deal with uncertainty.	
Is the title of the article suitable? (If not please suggest an alternative title)	yes	
Is the abstract of the article comprehensive? Do you suggest addition (or deletion) of some points in this section? Please write your suggestions here.	Yes, Abstract is comprehensive.	
Are subsections and structure of the manuscript appropriate?	Yes	
Please write few sentences regarding the scientific correctness of this manuscript. Why do think that this manuscript is scientifically robust and technically sound? Minimum 3-4 sentences may be required for this part.	This article deals the most emerging area of research namely Fuzzy in the concept of Matrix theory which is very much useful to deal with uncertainty. Also the application of Fuzzy Matrices in the filed of Medical Diagnosis is also very interesting and provide methodology to diagnosis the diseases. Binary relation between Fuzzy Matrices are discussed in this article which can be applied to many fields Economies, Sociology, Cryptography and Graph Theory etc.	
Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. :	Yes	

Review Form 2

Minor REVISION comments		
Is language/English quality of the article suitable for scholarly communications?	Moderate	
Optional/General comments	A general Methodology in the application of Medical Diagnosis can be given	

PART 2:

	Reviewer's comment	Author's comment(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
