

Editor's Comment:

Please, this paper is very interesting, well written and provides sufficient information, which significantly advances knowledge in applied physics.

However :

(a)- All equations are not numbered correctly, especially in results and discussions part

(b)- Fig.3. (a), (b), (C) and (d) are not very clear

(C)- Fig.4. (a), (b), (C), (d), (e) and (f) are not very clear

(d)- None reference from 2020 to 2024

(e)- The introduction involves two paragraphs with nine (9) references (is very insufficient)

I ask for the authors to review all these points before the publishing of this paper.

Besides, the authors have done a salient and conclusive work on this topic.
