PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	The introduction should include a statement that describes the importance of comparing education systems. Without that statement, the value of the topic is not clear. The author should answer the question: 'Why would a reader want to know about a comparison of education policies of developing and developed countries?'	
Is the title of the article suitable? (If not please suggest an alternative title)	The title is more general than the coverage of the chapter. The chapter is not discussing education policies of all developing countries and all developed countries. It should read 'A comparative study of education systems and policies in selected developing and developed countries.'	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract of 270 words is appropriate for the purpose of giving readers a brief overview of the contents of the chapter.	
Are subsections and structure of the manuscript appropriate?	The manuscript is well organized, with a structure that is appropriate for the purpose.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The education policies mentioned in the manuscript must be cited accurately. For example, what is the name of America's education policy of 2002 that the author is referring to? Is the author referring to No Child Left Behind Act of 2001? It is not sufficient to say the US Education Policy, enacted on January 8, 2002	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	The eight references are sufficient and the timeframe of 2003-2024 is appropriate.	
Minor REVISION comments
